

Mission Statement:

Student Support Services is committed to the academic success of our participants. To achieve this endeavor, we utilize proactive, intensive, and personalized services. Each SSS student is provided with a variety of academic and supportive services to enable them to persist in college and to achieve their educational and career goals. It is our vision that each participant completes an associate degree at Carl Albert State College. This is achieved only through the personal responsibility taken by the student and the intrusive services provided by SSS.
